Index to Volume 41, 2002

Abortion, postabortion psychological adjustment, minors (abstract), 51
Academic health centers, status of clinical research (abstract), 353
Acetaminophen, toxicity, children (abstract), 621
Adderall, seizures and, Letter to the Editor, 365
Addiction, repetitive self-injury, hospitalized adolescents, 1333
ADHD: *see* Attention-deficit/hyperactivity disorder
Adjustment disorders, episode duration and predictors of time to recovery, 410
Adolescents
  abortion, postabortion psychological adjustment (abstract), 51
  acute psychosis, serum creatine kinase levels, 1045
  ADHD
    association with cigarette smoking, 799
    OCD and, 52
    symptoms, age of onset, Letter to the Editor, 496
  aggression
    impulsive, citalopram for treatment, 522
    psychiatric disorder and, outcome predictors, 36
  alcohol use
    anger relationships and (abstract), 16
    initiation of risk behaviors, 846
    prevalence of *DSM-IV* alcohol diagnoses, 16
    self-perceived health and hospitalization frequency (abstract), 1223
  anorexia nervosa, bone mineral density, males, 613
  anxiety
    cognitive-behavioral/interpersonal group treatment, 739
    electronic diaries, monitoring daily life, 660
    school-based treatment, African Americans, 768
  autism, priapism associated with trazodone, Letter to the Editor, 758
  bipolar disorder
    treatment, safety and effectiveness of divalproex, 1224
    Young Mania Rating Scale, parent version, discriminative validity, 1350
  bulimia, initiation of risk behaviors, 846
  bullying and emotional problems (abstract), 304
  CD, childhood behavioral profiles, risk trajectories, 1086
  condoms and (abstracts), 426, 1359
  depression
    association with sexual risk behaviors (abstracts), 695, 1516
    attachment-based family therapy, 1190
    clinical approach to integrating treatment, 1253
    emergence of gender differences, 190
    episode duration and predictors of time to recovery, 410
    fluoxetine for acute treatment, 1205
    immunity, 1054
    major, paroxetine, Letters to the Editor, 363, 1269
    parental identification, 296
    religiosity and physical maturation, girls, 206
    telepsychiatric care, Letter to the Editor, 894
    treatment of offspring of depressed parents, 305
  depressive symptoms
    attachment and depression, 1478
    epidemiology, 199
    sexually transmitted disease and (abstract), 1516
    socioeconomic status and substance use (abstract), 1485
  family risk factors and offspring disorders, 402
  health, screening instrument (abstract), 466
  health care information sources, age and gender differences (abstract), 393
  help-seeking behavior, seeking help from Internet, 1182
  HIV
    -infected, no change in health risk behaviors over time (abstract), 418
    testing, decisions, impact of parental consent and notification policies (abstract), 418
  homeless, sexual orientation, relationship to substance use, suicidal ideation, and suicide attempts (abstract), 58
  juvenile justice, youth contact with system, effects of capitated mental health services, 1462
  mania, quetiapine as adjunctive treatment, 1216
  mental health, NIMH Blueprint for Change Report, 760
  mothers
    attachment classifications among 18-month-old children (abstract), 946
    preschool children, behavior and development (abstract), 1332
  OCD
    ADHD and, 52
    screening measure, Leyton Obsessional Inventory, 1246
    treatment, fluoxetine, 1431
  perceptions of family functioning, 1486
  pregnancy
    associated with dating violence against girls (abstract), 366
    potential for child abuse, assessment (abstract), 753
  psychiatric disorders
    aggression and, risk and protective factors as predictors of outcome, 36
    symptoms, relationship to suicidal ideation, 44
  psychopathology, attachment and personality disorders, 1111
  psychotropic medication use, national trends, 514
  PTSD
    earthquake victims, Taiwan, 875
    victimization and, Danish national youth probability sample, 174
  risk behaviors
    associated with early smoking (abstract), 27
    initiation, 846
    sexual, associated with dating violence against girls (abstract), 366
    sexual, depression, self-esteem, and substance use (abstracts), 695, 1516
    sexual, parent-adolescent communication, African-American girls (abstract), 711
    sexual, preventing, among gay, lesbian, and bisexual adolescents (abstract), 58
    tattoos and body piercings as indicators (abstract), 1494
  self-esteem
    as predictor of initiation of coitus (abstract), 1359
    association with sexual risk behaviors (abstracts), 695, 1516
    extremely low birth weight (abstract), 1123
  self-injury, repetitive, affect regulation and additive aspects, 1333
  self-report rating scale, *DSM-IV*-referenced, 671
  sertraline pharmacokinetics and dynamics, 1037
  sex, unwanted, refusing, psychosocial and behavioral correlates, African-American females (abstract), 1181

sex offenders, distinguishing two types, 83
sexually transmitted disease, depressive symptoms and (abstract), 1516
sexual orientation
benefits of gay-sensitive HIV instruction in schools (abstract), 58
health care issues of gay and lesbian youth (abstract), 449
implications for substance use and abuse (abstract), 1359
relationship to substance use, suicidal ideation, and suicide attempts (abstract), 58
suicide risk and (abstract), 205
smoking
African-American girls (abstract), 401
association with ADHD, 799
early, high-risk behaviors associated with (abstract), 27
initiation of risk behaviors, 846
parental disapproval (abstract), 810
psychiatric comorbidity and, 1294
self-perceived health and hospitalization frequency (abstract), 1223
substance abuse
associated with dating violence against girls (abstract), 366
association with sexual risk behaviors (abstracts), 695, 1516
attention dysfunction as predictor, 680
dependence and delinquency subtypes, 386
ethnicity and comorbidity, 394
improving prevention, assessment, and treatment financing (abstract), 529
predicting illicit drug initiation, 838
socioeconomic status and depressive symptoms (abstract), 1485
suicidal behavior, informant-specific correlates, 723
suicide, completed
assessment, management, and prevention (abstract), 1133
government agency contacts before death, 427
suicide attempts
associated with dating violence against girls (abstract), 366
follow-up study, Israel, 1342
intervention trial to improve adherence to community treatment, 435
sunscreen use, sunburning rates, and tanning bed use (abstract), 1453
Tourette's syndrome, treatment, risperidone vs clonidine, 330
treatment with stimulant medication, practice parameter, 26S
violence
dating violence against girls, associated substance use, unhealthy weight control, sexual risk behaviors, pregnancy, and suicidality (abstract), 366
injuries and deaths from interpersonal violence, girls (abstract), 181, 261
weight gain
associated with atypical antipsychotics, Letters to the Editor, 1272
associated with olanzapine and risperidone, 337
Adoption
coparent or second-parent, by same-sex parents (abstract), 1085
study, ADHD, Letters to the Editor, 1389
Adults
brain, new neurons, stem cell research, 354
DSM-IV disorders, prediction, child and adolescent problems, 182
intelligence, duration of breastfeeding and, association (abstract), 1305
methylphenidate bioavailability, extended-release multiparticulate formulation, 443
treatment with stimulant medication, practice parameter, 26S
Affect regulation, repetitive self-injury, hospitalized adolescents, 1333
African Americans
adolescents
anxious, school-based treatment, 768
females, refusing unwanted sex (abstract), 1181
females, sexual risk behavior, parent-adolescent communication and (abstract), 711
females, smoking (abstract), 401
perspectives on health care (abstract), 105
Age-of-onset criteria, ADHD, Letter to the Editor, 496
Aggression
development, reliability, and validity of Children's Aggression Scale-Parent Version, 245
impulsive, citalopram for treatment, 522
management of acute aggression in youths, 897
prevention and management, practice parameter, 4S
psychiatric disorder and, adolescents with, risk and protective factors as predictors of outcome, 36
psychopharmacology and, stimulant effects on overt/covert aggression-related behaviors in ADHD, 253
reduced, with treatment of sleep disorder, Letter to the Editor, 1025
Alcohol diagnoses and symptoms, *DSM-IV* criteria, prevalence in adolescent community and clinical samples, 546
Alcohol exposure, prenatal, children with school problems, MRI findings (abstract), 1368
Alcohol use
age of drinking onset, involvement in physical fights after drinking and (abstract), 633
anger relationships and, early to late adolescence (abstract), 16
during pregnancy, smoking and, Letters to the Editor, 1391
initiation of risk behaviors, adolescents, 846
maternal, during pregnancy, ADHD and, 378
self-perceived health and hospitalization frequency, adolescents (abstract), 1223
sensation seeking and, adolescents, 1495
Allergy, relationship between separation anxiety disorder, parental panic disorder, and atopic disorders, 947
Alternative therapy
kava-induced fulminant hepatic failure, Letter to the Editor, 631
treatment of childhood-onset schizophrenia, 538
Anger relationships, alcohol use and, early to late adolescence (abstract), 16
Anorexia nervosa
bone mineral density, male adolescents, 613
neural substrates, behavioral challenge study with PET (abstract), 66
Omani youths, 1124
Antidepressants
model of developing neuroendocrine systems, 999
regulation of neurogenesis, stem cell research, 745
use by children and adolescents, national trends, 514
Antisociality, types of adolescent sex offenders, 83
Anxiety
after severe pediatric closed-head injury, 148
antenatal, postnatal depression and, 1470
-based school refusal, treatment, child therapy and caregiver training, 687
cognitive-behavioral/interpersonal group treatment, adolescents, 739

monitoring daily life with electronic diaries, teenagers, 660
Pediatric Anxiety Rating Scale, development and psychometric properties, 1061
prevalence of selective mutism, 938
rating scales, 634
school-based treatment, African-American adolescents, 768
symptoms, *DSM-IV*-defined, South African children, 1360
test of positive-negative affect model, children, 419
Anxiety disorders: *see also* Separation anxiety disorder
group and individual cognitive-behavioral therapy, 1423
symptoms, *DSM-IV*-defined, South African children, 1360
Asthma, relationship between separation anxiety disorder, parental panic disorder, and atopic disorders, 947
Athletes, young, use of creatine (abstract), 225
Atomoxetine, vs methylphenidate, children with ADHD, 776
Atopic disorders, separation anxiety disorder, and panic disorder, 947
Attachment, insecure, as risk factor for future depressive symptoms, 1478
Attachment disturbances, young children
continuum of caretaking casualty, 972
indiscriminate behavior and institutional care, 983
Attachment needs, adolescent daughters of children with cancer (abstract), 181
Attachment patterns, personality pathology and, relationship between, adolescents, 1111
Attention: *see also* Inattention
brain mapping in hyperkinetic disorder, 990
dysfunction, prediction of substance involvement, 680
skills, during first 6 months of age, ASD, 1239
Attention-deficit/hyperactivity disorder
adoption study, Letters to the Editor, 1389
altered cortical activity during attentional load task, children, 811
atomoxetine vs methylphenidate, children, 776
brain mapping in hyperkinetic disorder, 990
children and adolescents with OCD, 52
clinical practice guidelines, treatment of school-age children (abstract), 537
clonidine overdose caused by compounding error (abstract), 222
comorbidity in preschoolers, 262
cytogenetic abnormalities, 806
docosahexaenoic acid supplementation (abstract), 139
DSM-IV criteria, cross-cultural assessment, 1131
DSM-IV subtypes
educational and cognitive performance, 820
neuropsychological executive functions, 59
following GABHS infection, Letter to the Editor, 1273
GW320659 treatment, children, 914
International Consensus Statement, Letter to the Editor, 1389
maternal ADHD and parent training, 696
maternal smoking, alcohol use, and drug use during pregnancy, 378
methylphenidate treatment
atomoxetine vs methylphenidate, children, 776
experimental methylphenidate delivery, 1306
methylphenidate bioavailability sprinkled or intact, 443
OROS methylphenidate, safety and efficacy (abstract), 702
oral flower essences, Letter to the Editor, 895
parental psychological distress and, 703
pemoline treatment, compliance with FDA recommendations, 785
prevalence of medication treatment, North Carolina county (abstract), 1314
putamen lesions and development of symptomatology, 563
screening instrument for preschoolers, 604
stimulant medications
aggression and, 253
Letters to the Editor, 1146
practice parameter, 26S
use in South Australia, 906
symptoms, age of onset, Letter to the Editor, 496
treatment outcomes, socioeconomic status as moderator, 269
Attrition prevention, MTA Manual-based solution, 498
Atypical antipsychotics, weight gain associated with, Letters to the Editor, 1272
Autism
CHAT at 18 months of age, Letter to the Editor, 235
genetics
diagnosis and assessment in ASD, 1134
neural foundations, 1259
psychopharmacology, 1380
serotonin in autism, 1513
maladaptive symptoms, use of ziprasidone, 921
Medicaid-eligible children, race differences in age at diagnosis, 1447
pregnancy and birth complications, 572
prevalence, Brick Township, New Jersey (abstract), 579
priapism associated with trazodone, Letter to the Editor, 758
quantifying dimensions, factor-analytic study, 467
reducing symptoms, porcine vs synthetic secretin, 1315
risperidone treatment, short- and long-term safety and effectiveness, 140
screening for, with Developmental Behavior Checklist, 1369
Autism spectrum disorder, attentional skills during first 6 months of age, 1239
Autistic disorder
hyperactivity and impulsiveness, effects of lofexidine, Letter to the Editor, 1396
Medicaid-eligible children, race differences in age at diagnosis, 1447
Autistic spectrum disorder
concept, Letters to the Editor, 1393
diagnosis and assessment, 1134
Autoimmune disorders, genetics
animal models for noninflammatory autoimmune disorders of the brain, 223
D8/17 reactivity as marker of susceptibility to neuropsychiatric disorders, 98

Bach flower essences, for ADHD, Letter to the Editor, 895
Behavioral problems
ADHD and parental psychological distress, 703
antenatal anxiety and postnatal depression, 1470
association with sleep problems in childhood, 964
confluence of difficulties in childhood
developing MacArthur HBQ, 588
early life morbidities, 580
home-based nurse intervention, children with in utero drug exposure (abstract), 295
preschool children, community intervention program (abstract), 1461
stimulant effects on overt/covert aggression related behaviors in ADHD, 253
Bereavement, group intervention
children bereaved by suicide of relative, 505
incarcerated youths, Letter to the Editor, 893

Bilingualism, language disorders in children, 712
Bioavailability, methylphenidate, extended-release multiparticulate formulation, adults, 443
Biomedical research, restoring and preserving trust (abstract), 1013
Bioterrorism, suspected cases, diagnosis and management (abstract), 1274
Bipolar disorder
early-onset, symptom factors, 791
mania, quetiapine as adjunctive treatment, adolescents, 1216
treatment, open-label trial of divalproex, 1224
Young Mania Rating Scale, parent version, discriminative validity, 1350
Birth complications, autism, 572
Body dysmorphic disorder, adolescent girl, 1503
Body mass index, changes, prior to onset and diagnosis of eating disorders, teenage girls (abstract), 35
Body piercings, as indicators of adolescent risk-taking behaviors (abstract), 1494
Body weight: *see also* Weight gain
changes, prior to onset and diagnosis of eating disorders, teenage girls (abstract), 35
unhealthy weight control, associated with dating violence against adolescent girls (abstract), 366
Bone mineral density, male adolescents with anorexia nervosa, 613
Bootstrap method, fluctuations in TIC and OC symptoms, 1070
Boys: *see* Males
Brain
adult, new neurons, stem cell research, 354
cortical activity, altered, during attentional load task, children with ADHD, 811
function, maturation, associated with response inhibition, 1231
multicenter P300 brain mapping of impaired attention to cues, hyperkinetic children, 990
noninflammatory autoimmune disorders, animal models, 223
putamen lesions and ADHD, 563
reconstructing, stem cell research, 622
